

# Phantom V3

## PERFORMANCE

### YAMAMOTO 40 & BIO STRETCH ZONES

Maximize range of motion  
1,5mm panels under arms and lower back,  
1mm panels on arm, shoulder and collar

### AERODOME TECHNOLOGY

Maximizes buoyancy and reduces drag

### QUICK RELEASE PANELS

At the back for easy release for better transition time

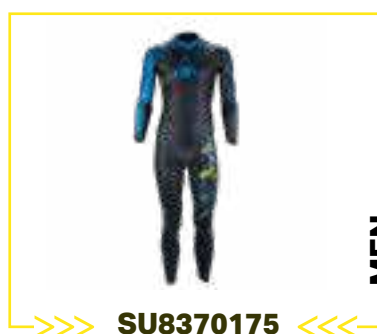

>>> The enhanced Phantom provides an increased range of motion with strategically placed 1.5mm Yamamoto 40 panels and reinforced waist panels for posture support. The Phantom provides warmth, flexibility, comfort and speed. This is our most technological wetsuit designed for the most elite athletes.
