DEPTH REDUCING UNDERWATER POOL PLATFORMS			Dimensions (length x width x height)	Product code
Pool island PF1000/1000H200	Pool island PF1000/1000H700	Stairs for platform		
			100 x 100 x 20cm, 9kg	PF1000/1000H200
			100 x 100 x 70cm, 22kg	PF1000/1000H700
			Individual measurements	PF

Pool platform PF	Pool platform with handrail and bottom side protection	Pool platform with protection on two sides	Pool platform with protection on three sides	Pool platform for reducing floor slope	Accessories:
					Rubber feet for better grip with the floor Removable connectors for platform segments

Pool platforms are solid and stable platforms that reduce the pool depth and help with learning to swim and practice aqua fitness.

Pool platforms have been designed to help new swimmers learn to swim in deeper water or where visitors are unable to touch the bottom of the pool.

Pool platforms are made especially for swimming schools, commercial pools, spas and hospitals. Pool platforms give confidence and encourage students to learn to swim faster and can increase the use of the pool.
