

Aqua  **Drolics**

The specialist in water play products worldwide

Since 1988 Aqua Drolics provides water-fun for children. Through the years, the passion for water play products for children resulted in an assortment of over 300 standard products. Aqua Drolics is also known as a specialist of custom made products. This as a result of the attendance of the creative design team in combination with the own production facility in the Netherlands.

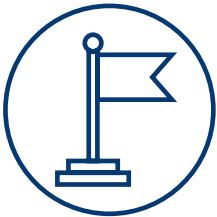

Not only fun, but also quality and safety are standards which are very important to Aqua Drolics. All the water play products are produced from Glass Fiber Reinforced Polyester (GRP) and they all meet the safety requirements in accordance with the European Standards.

BENEFITS

WHAT MAKES AQUA DROLICS UNIQUE TO CHOOSE AS A PARTNER COMPARED TO OTHERS?

With **more than 30 years of experience** and employees who represent high-quality products, Aqua Drolics is a true specialist in this industry. Over **5.000 projects worldwide** are realised already.

Aqua Drolics has their **own production facility** in Best, nearby Eindhoven in the Netherlands. The advantages for you are high quality products, efficient and **quick production process**, short lines of communication and **endless options for customization**.

All the products of Aqua Drolics are made of Glass Fiber Reinforced Polyester (GRP) and/or stainless steel. By using this **high-quality materials**, the products are extremely **resistant to scratching and vandalism**.

The gel- and top coating used, are the **best available coatings**. In combination with the production process using molds most of the times, this provides a **high-gloss** result which is **resistant to UV and weather influences**.

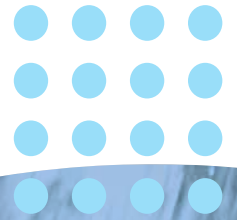

Aqua Drolics has a great **attention for details**. All the products fit perfectly, are nicely finished and inspected before delivery. They are all produced **in accordance with the European Standards** NEN - EN 1069, NEN - EN 1176, NEN - EN 13451 and NEN - EN 17232. You don't have to worry about unsafe situations.

5 years of guarantee! Because Aqua Drolics believes in their high-quality materials and state-of-the-art production facilities, Aqua Drolics offers even the option to **extend to 10 years guarantee!**

“Each one of us can make a difference. Together we can make a change.”

- Barbara Mikulski

RESELLERS

Become an Aqua Drolics partner?

Aqua Drolics continuously works by gradual geographic expansion and is constantly developing innovative and (inter)active products of high water fun quality for small children.

Are you interested in reselling the products of Aqua Drolics? Please don't hesitate to contact us. It is our pleasure to discuss the terms and conditions which apply for you as our reseller.

The right partners

Aqua Drolics works with professional and reliable partners in many different countries. In the countries where Aqua Drolics has a reseller, you can also choose to do business with Aqua Drolics directly. For more contact details about our partners please get in touch with us, and we will provide you with their details.

[RESELLERS OF AQUA DROLICS]

It's possible to buy the products of Aqua Drolics directly or through one of our reliable partners in many different countries.

*Coming together is a beginning,
staying together is progress,
and working together is succes.*

- Henry Ford

PROJECT PLANNING

1

First contact

After you've made contact with one of our experts, we'll start working on the brainstorm phase of a unique water playground for you on site and without any further obligations.

2

Information gathering

It's time to get a clear picture of your needs and wishes. Topics such as the available space, budget, and the style that appeals to you most will be discussed.

3

Design phase with 3D proposal

Our designers will visualise your needs and wishes in a 3D design. This first 3D design will serve as the discussion point to further fine-tune your project.

4

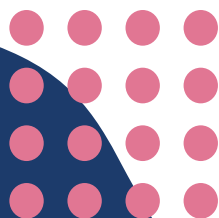

Drafting the quotation

If you are satisfied with the 3D design, we will send you the quotation to give you an idea of the costs.

5

Signature of order confirmation

Once you're completely satisfied with the design and you've issued the order for your unique water playground, we will start the production.

ORDER IS SIGNED, WHAT'S NEXT?

- 6** **Technical specifications**
The technical drawings will be made for production. If you need a hydraulic drawing, you'll receive it in this phase.
 - 7** **Start of the production process**
Aqua Drolics aims for a delivery time of 6-8 weeks, but this could be longer during busy periods.
 - 8** **Communication about the status**
A few weeks before the estimated production ready date, we will update you about the current status and schedule the definitive delivery- and/or installation date.
 - 9** **Delivery of the products**
When the products are ready, you'll receive the products by our forwarder. If we install the products at your location, you will be assured of an excellent quality and the proper installation.
 - 10** **Regular maintenance**
Because of limescale, temperature fluctuations and UV radiation, it's important to carry out maintenance. You can do this by yourselves or by one of our specialists.
 - 11** **It's time for lots of water fun!**
It's time to let your guests fully enjoy all the water fun in your unique and splashing water area.
- 

CREATE YOUR OWN WATER AREA

But how do you have to start?

Don't limit the possibilities of your water play environment, because everything is possible with our modular system. It all starts with the fundamentals: choosing the right base that suits you the best: a toddler pool or a spray park. And then? Which steps do we have to think about with you to develop the ideal environment? The following handout will give you a short impression of this process.

▶▶▶ Get inspired from page 16

Choosing the Aqua Drolics' pool as the base for your area?

You have several options which you can combine. Underneath we will give you a first impression. There are many more opportunities. All colours and designs can be customized in the desired theme.

Pool element

Available in 1 and 2 meter elements

Pool element decoration

All kind of extras could be added to the outside of the element

Rock

A connectivity option between the elements

Cube

A connectivity option between the elements

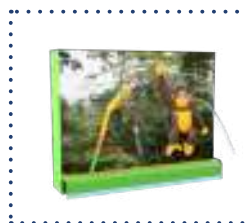

Quay

Alternative pool element

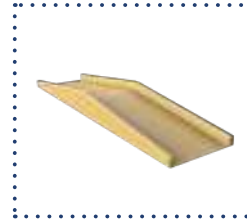

Water play product

Alternative pool element with directly lots of water fun

Wall decoration

Alternative pool element with direct high decorative functionality

Wheelchair access

Wheelchair proof acces to the pool

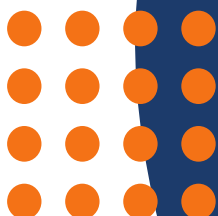

Examples of combined options

ADVANTAGES OF AN AQUA DROLICS POOL

- The pool consists of modular elements, so it can fit any environment or dimension;
- The water depth of the pool is 22 centimeters (8.7 inches), ideal for your youngest guests;
- The floor will be laminated to the elements to make it 100% watertight;
- The parents can sit and relax at the edge of the pool;
- The preparations are relatively easy compared to other swimming pool systems;
- The pool can be designed to be wheelchair accessible;
- The pool will be installed by Aqua Drolics professionals, as this is a specialist job.

SPECIAL FEATURES

Activators

By default, water flows continuously through our products. We offer alternatives to manually activate the water flow of a product to increase interactive play experience, and to minimize the usage of your water system, or when there is no water connection available. Please contact our staff which options are applicable to your desired products.

Water connection required?

	Hand pump	<input type="checkbox"/>
	Push button	<input checked="" type="checkbox"/>
	Steering wheel	<input checked="" type="checkbox"/>
	Optional:  > With dynamo	<input checked="" type="checkbox"/>

Extra interactivity

Bring our products to life by adding even more interactive elements! Please contact our staff which option is applicable to your desired products.

			
Music	Fog	Light	Photobooth
			
Games	360° Rotation	Floating element

“Never, ever underestimate the
importance of having fun.”

- Randy Pausch

COLOUR OPTIONS

Our colour options

The right colours can ensure your aquatic playground to be fully connected with the mood and energy from your youngest visitors and surroundings. A calming blue, or an energetic yellow palette will set the right atmosphere for your aquatic playground. Because of this reason, it's possible to fully customise the colours of your products. You can choose any colour from our standard colour overview below. Do you prefer a different colour? Let us know!

ICE

Looking for a good place to really cool down during the hot summers? Then explore our Ice theme and let the children go on a journey through an enchanted ice land. Be as strong as a Viking and enjoy the ice-experience by mounting a sledge, snowmobile, or board a Viking ship! Discover the polar wildlife and don't forget to build a snowman!

W = 10200 D = 10165 H = 5745

Water playground XXL 1120 9973

W = 7945 D = 9880 H = 6100

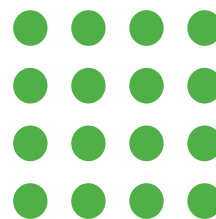

MORE SOLUTIONS

MORE SOLUTIONS CHOW

Take a splash in our Chow toddler pool and enjoy the water fun this pool has to offer. Thanks to its compact size, the chow pool is ideal for small surfaces and offers lots of water fun. You can combine various colours and add water play elements for an even more playful look.

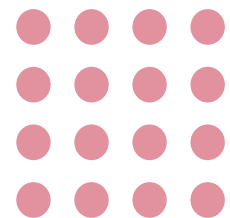

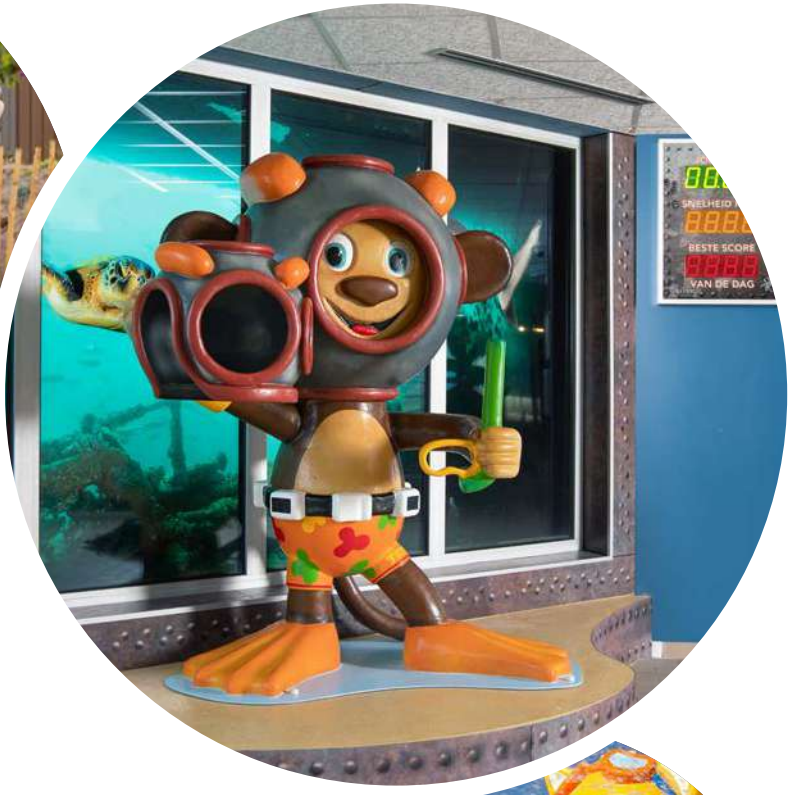

The advantages of the Chow pool at a glance:

- Plug and play;
- Could be installed by own technician;
- Available in all colours;
- The possibility to add two water play products on the edge of the pool.

MORE SOLUTIONS MASCOTS

Do you have a mascot or would you like to have one at your location? Our specialists are standing by to transform it into a unique water play product. Thanks to our experienced professionals, and the many mascots we've created over the years, we guarantee that this water play product will be the highlight of your swimming pool or spray park. A nice recognition of the smallest guests, and completely in line with your corporate identity.

MORE SOLUTIONS GROUND SPRAYS

Complete your spray park with different spray effects. The Ground Sprays will be an addition to your design and create a unique playing experience for your guests. Our Ground Sprays are interchangeable and compatible with our other sprayers.

Ground spray A 1410 9853

W = 100 D = 100 H = 120

Ground spray C 1410 9855

W = 100 D = 100 H = 120

Ground spray D 1410 9856

W = 100 D = 100 H = 120

Ground spray E 1410 9857

W = 100 D = 100 H = 120

Ground spray F 1410 9858

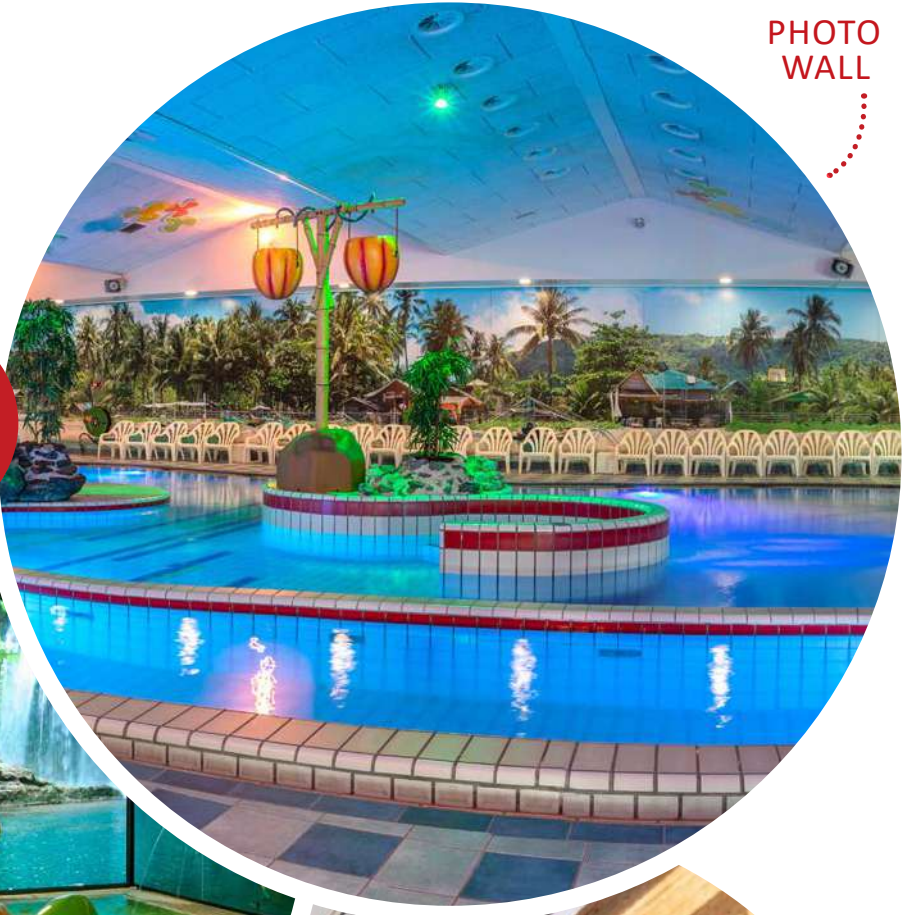

W = 100 D = 100 H = 120

MORE SOLUTIONS WALL DECORATION

Every environment need some finishing touches. Aqua Drolics offers a complete pool transformation by adding wall decorations to your swimming pool. Photo elements or (see-through) window decoration adds the perfect finish for your environment. These elements are fully customizable so it will fit your desired theme perfectly.

SAFETY

Safety and quality are of absolute importance at Aqua Drolics. During the production process we ensure that both the safety and the quality of the products are guaranteed. From start to finish, close attention is paid from the design of the project to the installation of the products.

Our team of professionals design the products according to fixed guidelines for safety, quality and health requirements mandated by Dutch law, and they also conform to the European standards NEN-EN 1069, NEN-EN 1176, NEN-EN 13451 and NEN-EN 17232. This ensures us to have your products delivered with a TÜV certificate or 'Keurmerkinstituut'- certificate, giving you physical proof and reassurance of the safety and the quality of our products.

NEW! UNDERWATER PROTECTION

To comply with the safety requirement of the European Standard NEN-EN 17232 it is necessary to avoid swimming under the water play equipment.

This underwater protection will be attractive and fitting according to the water play product by introducing for example nets or polyester plates. The polyester plates can even be made interactive by introducing games, like tic-tac-toe and baskets.

MAINTENANCE

Aqua Drolics takes great care in making its products. We only use the best materials. In spite of the good quality of the products, every product needs maintenance to increase its lifespan. Because of limescale, temperature fluctuations and UV radiation, among other things, it is very important to carry out regular maintenance. A standard intensive care once or twice a year will keep the products in optimal condition.

You can do the maintenance by yourself, but our team can also help you with this. What are the benefits of a maintenance contract?

Extended warranty options up to 10 years!

Longer lifespan of products

Extra discount under maintenance contract on:

- Service and maintenance materials: 15%
- Labour and call-out charges: 10%

Annual product check, service report of findings

Rapid assistance in case of defects

Top quality maintenance and service
